- 3) Draw diagrams wherever necessary.
- 4) Do not write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

2. Answer the following (any five out of six):

 $(5 \times 3 = 15)$

- a) Reaction of preschool child to hospitalization
- b) Problems of breast feeding
- c) Under five clinics
- d) Principles and uses of restraints in children
- e) Nursing Management for neonatal hypoglycemia
- f) Sign and symptoms of Kwashiorkor.
- 3. Answer the following (any three out of four):

- a) Care of child with colostomy
- b) Prevention of accident in children
- c) Factors influencing on growth and development
- d) Thermoregulation in a new born.

SECTION - C

Answer any two LAQ out of Q. 4, 5 and 6:

| | Sanjay 11 months old child admitted in pediatric unit due to diarrhea wi degree dehydration | | 4 - |
|---|--|----------------|-----|
| | a) What are the causes of diarrhea? | (15×1= | :15 |
| | | | 2 |
| | b) List down the clinical features of 3 rd degree dehydration. | * | 4 |
| | c) Plan a nursing care for Sanjay. | | 5 |
| | d) What health teaching you will give to the mother to prevent the diarr | hea? | 4 |
| , | New born Baby admitted in pediatric surgery ward with excessive saliconstant drooling large amount of secrection from the nose. Pediat diagnosed as tracheo-esophageal fistula with atresia. | | 15) |
| | a) Define trachea-esophageal fistula and atresia. | • • • | 2 |
| | b) Classification of trachea-esophageal fistula and atresia with diagran | n. | 5 |
| | c) Write down pre and post operative nursing care. | | 8 |
| | Anil 5 years old child admitted with massive edema, protenurial hypertension. Pediatrician diagnosed as nephritic syndrome. Give answithe following question: | a and werto | |
| | | (15×1=1 | 5) |
| | a) Define Nephotic syndrome. | N. | 2 |
| | b) Explain the pathophysiology and clinical manifestation. | | 5 |
| | c) Discuss the nursing management of Anil. | | 8 |
| | | | |

First P.B. B.Sc. Nursing Examination, Summer 2013 CHILD HEALTH NURSING

Total Duration : Section A + B + C = 3 Hours

Section B & C Marks: 60

SECTION - B & SECTION - C

Instructions: 1) All questions are compulsory.

- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams wherever necessary.
- 4) Do not write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

2. Answer the following (any five out of six):

 $(5 \times 3 = 15)$

- a) APGAR SCORE
- b) Problems of breast feeding
- c) Tempertantrum
- d) Etiology of protein energy malnutrition
- (a) Importance of play therapy for children
- f) Under five clinics.
- 3. Answer the following (any three out of four):

- a) Care of child with colostomy
- b) Factors affecting growth and development
- c) Immediate care of newborn
- d) Role of paediatric nurse.

SECTION - C

Answer any two LAQ out of Q. 4, 5 and 6:

| 4. | 11 | months old child is admitted in Paediatric Unit with 3 rd degree dehydration. (1x15= | :15) |
|--|----|---|------|
| | a) | What are the causes of diarrhoea in children? | 2 |
| | b) | List down the clinical features of 3 rd degree dehydration. | 4 |
| | c) | Write down the nursing care plan for 11 months old child. | |
| | d) | What health education will you give to his mother to prevent diarrhoea? | 4 |
| 5. New born baby is admitted in Paediatric Surgery Ward with excessive salivation constant drooping of large amount of secretion from the nose and child is diagnosed as Tracheo-oesophageal fistula with atresia. | | nstant drooping of large amount of secretion from the nose and child is | =15) |
| | a) | Define Tracheo oesophageal fistula and atresia. | 2 |
| | b) | Write down the classification of Tracheo-oesophageal fistula and atresia with diagram. | 5 |
| | c) | Write down pre and post operative nursing care of a child. | 8 |
| | | (1×15= | =15) |
| 6. | a) | Define preterm baby. | 2 |
| | b) | Discuss the physical characteristics of preterm baby. | 5 |
| | c) | Write down the nursing management of premature baby who is admitted in NICU. | 8 |

First P.B.B.SC. NURSING, Winter 2014

Total Durataion: Section A+B = 3 Hours

Child Health Nursing

Total Marks: 75

Section - A & Section - B

Instructions:

- 1) Use blue/black ball point pen only.
- 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 3) All questions are compulsory.
- 4) The number to the right indicates full marks.
- 5) Draw diagrams wherever necessary.
- 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
- Use a common answer book for all section.

Section "A" (40 Marks)

Short answer question (any five out of six) :

(5x5=25)

- a) Kangaroo mother care
- b) Nursing care of child with nephrotic syndrome
- c) Assessment of dehydration in children
- d) Principles of growth and development
- e) Mid day meal programme
- f) Nurses responsibility in oxygen administration for child

2. Long answer question (any one out of two):

(1x15=15)

Define hypertrophic pyloric stenosis and list clinical manifestation of hypertrophic pyloric

- a) stenosis.Describe surgical management for hypertrophic pyloric stenosis.
 Discuss post-operative nursing care for child with hypertrophic pyloric stenosis.
- Define Rheumatic fever. Explain Jones criteria in the diagnosis of Rheumatic fever. Discuss nursing management of a child with rheumatic fever.

Section "B" (35 Marks)

3. Short answer question (any four out of five):

(4x5=20)

- a) Characteristic of preterm infant
- b) Steps of baby friendly hospital initiative
- c) Tetanus in under five children
- d) Nursing care of child with fracture
- e) Juvenile delinquency

P.T.O.

4. Long answer question (any one out of two):

(1x15=15)

Ms. Lata a 8 years old child is admitted in paediatric ward with diagnosis of bronchial asthama

- a) Define bronchial asthma and explain pathophysiology of bronchial asthma. Enlist various nursing diagnosis for Ms. Lata. Write nursing care plan for two priority nursing diagnosis.
 - Master Rohit was brought to the hospital due to lack of voluntary muscle control and was diagnosed with Cerebral Palsy.
- Define Cerebral Palsy. Explain types of Cerebral Palsy. Discuss nursing management for Master Rohit.

First P.B.B.Sc. Nursing Examination, Summer 2015 CHILD HEALTH NURSING

Total Duration: Section A + B = 3 Hours

Total Marks: 75

SECTION - A & SECTION - B

- Instructions: 1) Use blue/black ball point pen only.
 - 2) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) All questions are compulsory.
 - 4) The number to the right indicates full marks.
 - 5) Draw diagrams wherever necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all Sections.

SECTION - A

(40 Marks)

A. Short answer question (any five out of six):

(5x5=25)

- a) Difference between Adult Care and Child Care.
- b) Nursing Care of Child with Meningocele.
- c) Health Education Tips for Mother about Prevention Of Accidents in Toddlers.
- d) Juvenile Delinquency.
- e) Principles of Integrated Management of Neonate and Childhood Illness.
